

Krion® is a next-generation, 100% recyclable Solid Surface made from two-thirds natural minerals and a small amount of durable resin. Non-porous and highly durable, it offers antibacterial properties, requires minimal maintenance, and is perfectly safe for food contact.

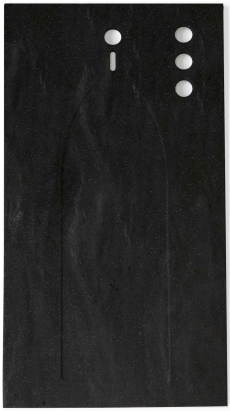

TEXTURED KRION®

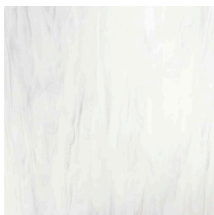

Calacatta
Replicates the beauty of Calacatta marble—a white marble with distinctive veining—but in a composite material that is more durable. Perfect for refined spaces that combine luxury with understated elegance.

Creta
A warm, soft beige reminiscent of slightly dusty natural clay. Full-bodied but unobtrusive, ideal for cozy and subtly elegant environments.

Etna
A bold black with a deep base and fine veining, adding depth and sophistication. Suitable for both modern and classic settings.

Carrara
Features a bright white background with delicate, natural grey veins, evoking classic Carrara marble. Elegant and refined, perfect for spaces with a tasteful, understated aesthetic.

Antico Bianco
Terrazzo-style finish blending a white base with grey, brown, and black fragments for a natural stone look.

Deep Granite
A dark granite-style design: a deep anthracite grey background with scattered light, crystalline “specks” that create glossy, reflective fragments, reminiscent of natural granite inclusions.

Grafite Classico
A deep anthracite grey with mineral notes and black accents. Evokes traditional terrazzo, uniform and full-bodied, ideal for modern spaces.

Black Mirror
A very dark, mirror-like finish that subtly reflects its surroundings. Offers an elegant, modern look with strong visual impact.

Nebula black
An intense, near-black tone with delicate veining that adds deep visual texture. Highly striking, perfect for creating bold, modern contrasts.
