

SOLUTIONS WITH MARBLE

QUABA
IMPROVE YOUR HABITS

Marble has been always appreciated for its beauty, durability and pleasantness to the touch. It is not just stone, but a silent witness of the ages. It hides traces of a millennial journey, making each piece unique and exclusive.

TYPES OF MARBLE

Carrara

Luster and fine grain, widely used in architecture for its beauty and durability. Famous all over the world.

Green Guatemala

With green hues and white veins, it confers elegance and uniqueness to the environment, it's used in interior design projects.

Brown Forest

Predominant shades of brown, enriched by subtle veins of beige, cream, or black. It offers distinctive elegance to any environment.

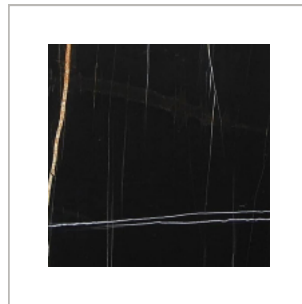

New Sunny

Predominant shades of light yellow or golden, often with subtle veins in white or beige tones.

Red Sunset

Predominant shades of deep red or burgundy, with darker veins or tones of beige and brown. Admired for its vibrancy.

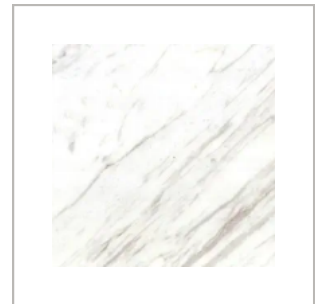

Sahara Noir Marble

Characterized by a dark base, often black or dark gray, with white, gray or golden veins. It offers sophisticated elegance.

Red Orobian Arabescato

Precious marble with a primarily red base, enriched with veins and shades of white, gray or black.

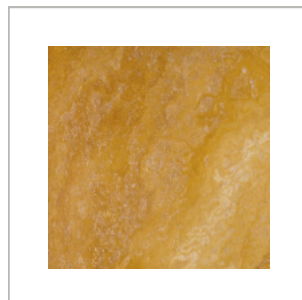

Striped Olympus

Predominantly white or cream tones, with thin veins and streaks in shades of gray, beige or brown

Striped Gray

Gray base streaked with darker veins or tones of white. It offers an elegant and contemporary look.

Yellow Travertine

Predominant tones of yellow, golden or cream, often characterized by veins and streaks in darker shades such as brown or beige.

Red Travertine

Predominant tones ranging from intense to light red, with lighter veins or shades that can vary from beige to cream.

Pink Travertine

Predominant tones of pink or salmon, with lighter veins or shades that can vary from beige to cream.
